

# Children's Religious Education (CRE) Committee

## I. Purpose

- CRE seeks to deepen the spiritual lives of our young members, to help them through our educational program and their relationships with others in the meeting, and to build their sense of spiritual wonder.
- In order to foster spiritual depth in our young people CRE is responsible for planning and implementing an educational program for the Meeting's children and young people. We call this program First Day School (FDS). Though our children range in age at this time CRE has decided to adopt a one room schoolhouse approach. The exception to this that the babies and toddlers have a safe space available for them to play in a supported and supervised manner.
- The FDS is a program that runs during the academic year. There is no programming in the summer, although organized child care can be provided as needed.
- To help provide a consistent environment for the children. Committee members often do the teaching for the first semester of the First Day School; roughly from September to December. Then from January to June Committee members involve other adults and teachers to work with the children. Each year the CRE committee sets a theme upon which the curriculum and lessons are centered.
- CRE's purpose is to also foster and deepen the spiritual lives of families, parents, and caregivers. CRE is responsible for communicating with the parents and caregivers the logistics of our First Day School program. More importantly, CRE consciously opens conversations and communications with parents about how their children and young people are feeling about FDS. Discussions and discernment are regularly held with parents and caregivers about how their children and young people can best engage in their own spiritual growth.
